Specifications
Model 9401-A
Page 1 of 2

DESCRIPTION
- Heavy duty brass valve.
- Heavy Duty Polished Stainless Steel Pedal.
- Stainless steel and aluminum latch mechanism
  "-NL" Models have no latch mechanism.
- Connections - Select 3/8" or 1/2"
- Installation hardware & SS braided flexible water
  lines are included, see page 2 for options.
- Meets ASME A112.18.1M

OPERATION
- Connected between supply stops and faucet or
  other temperature control device. Mounts in
  cabinet or on shelf under sinks.
- Depressing pedal opens both hot and cold water
  cartridges, allowing water flow from a pre-set faucet
  or other device.
- Depressing toe button latches pedal in an open
  position. Depressing latched pedal releases latch.
  Note: "-NL" Models have a non-latchable pedal.

FLOW
- 8 gpm Max. at 60 PSI

WARRANTY
- One Year Against Material or Manufacturing Defects
